EXAMINER 'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles E. Krueger on 07-20-07.

The application has been amended as follows:

In the claims:

Claim 9 (Currently Amended) Software embodied in one or more computer-readable media and when executed operable to:

enable a selected transmit queue to flush all packets from the selected transmit queue;
place the message packet in the selected transmit queue;
enable all other transmit queues;
wait a selected time interval sufficiently long for all other transmit queue to be flushed;
transmit the message packet from the selected transmit queue; and
measure time of transmission of the message packet from the selected transmit queue.

Claim 10 (Currently Amended) The software of claim 9 operable to transmit and measure further comprising software operable to:

read and save a base time of a local clock and a first timer value of a timer residing on the network device;
read a second timer value of the timer and transmit the message packet; and
calculate the time of transmission from the base time and first and second timer values.

Claim 11 (Currently Amended) The software of claim 9 where the message packet is a SYNC message packet utilized in the PTP.

Claim 12 (Currently Amended) The software of claim 9 when executed further operable to:
send a follow up packet including the time of transmission of the message packet.

Reason for Allowance

2. Regarding claims 1-12, the prior art fails to teach or suggest a method for determining the time of transmission of a message packet from a network device including a plurality of transmit queues, said method comprising the steps of disabling all other transmit queues; waiting a selected time interval sufficiently long for all other transmit queues to be flushed; transmitting the message packet from the selected transmit queue; and measuring time of transmission of the message packet from the selected transmit queue, as specified in the independent claims 1, 5, and 9.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
